BEFORE YOU BEGIN

When racism and sexism stack on Black women

Misogynoir is the specific oppression Black women face, at the crossroads of racism and sexism: hypersexualization, the 'strong/angry Black woman' stereotype, invisibility, the demand to be flawless. What you experience is real, and heavy.

This guide helps you name it, free yourself from it, and allow yourself to be fully you.

Your intention

A situation of misogynoir you've experienced: _____

The 4 approaches

This guide works your topic through 4 complementary psychology lenses. Read, do the exercises, fill the workbook — at your own pace.

Psychodynamic — understand the root.

CBT — ease the negative thoughts.

Humanistic — reconcile with yourself.

Systemic — act on your environment.

The specific weight of misogynoir

Having to be 'strong' at all times, with no right to vulnerability; being hypersexualized or, conversely, erased: this double weight exhausts, because it comes from two oppressions at once.

Naming it means no longer believing this fatigue is a personal flaw.

Example

Pushed to be 'the strong woman' who absorbs everything, Nia exhausted herself without allowing herself to falter. Naming misogynoir changed everything.

The weight I carry

Which misogynoir demand weighs most on you (being strong, flawless, invisible...)?

Two oppressions

Write how what you live stacks racism AND sexism — and why it's not 'in your head'.

→ *My fatigue comes from a real double weight — not a flaw in me.*

The internalized demands

'I must be twice as good', 'I'm not allowed to be tired, angry or fragile', 'they won't believe me': these internalized demands deprive you of the right to be human.

Challenging them lets you feel and breathe again.

Example

Sure she had 'no right' to be angry, Léa understood her anger at injustice was legitimate — and healthy.

Demands journal

Note: a demand you carry · what it forbids you · a permission to grant yourself.

My anger is legitimate

Write: 'I have the right to be tired, angry and fragile — like everyone.'

→ *I have the right to be human — not only 'strong'.*

Allowing yourself to be fully you

You don't have to shrink into a box — 'strong woman', 'angry woman', 'object'. You have the right to be strong AND soft, ambitious AND fragile, desirable on YOUR terms.

Existing freely, beyond stereotypes, is an act of liberation.

Example

By stopping playing 'the perfect, solid woman', Aïcha let herself be nuanced — and finally felt herself.

Beyond the boxes

What side of you does misogynoir forbid you to show? How to allow it back?

On my terms

Write a way of being/showing up that fits you — not the expected stereotype.

→ *I'm more than a box — I have the right to be all of me.*

Freeing yourself & getting support

Concretely: lean on sisterhood and communities of Black women, draw on role models, set limits, ease the mental and emotional load, and get support from professionals who understand your experience.

Sisterhood is both a refuge and a strength.

Example

In a circle of Black women, Fatou could finally put down what she carried — and draw strength from the collective.

My sisterhood

Which women / what circle can be a refuge for you? How to connect more?

Easing my load

A load (mental, emotional) you can put down or share this week: _____

→ *Surrounding myself with sisterhood and putting down my load — that's my strength.*
