## TO BEGIN

# Making peace with sharing — or clarifying what you want

---

Sharing your husband — his time, attention, intimacy — is one of the hardest realities of polygamy. It's normal to grieve exclusivity.

This guide helps you ease what sharing stirs up, and clarify what you need to feel respected within it.

## YOUR INTENTION

What's hardest about sharing for you (time, intimacy, attention...): \_\_\_\_\_

## Grieving exclusivity

Sharing the one you love hits a very human desire for exclusivity. Feeling lack, sadness or anger isn't weakness: it's a normal reaction.

Naming this grief, instead of denying it, is the first step to easing it.

### Example

*Sarah blamed herself for her sadness on nights without him — until she let herself name it as legitimate grief.*

### Name the lack

When does sharing weigh on you most? What do you feel at those moments?

### Allow it

Write: 'My lack is legitimate — I'm allowed to feel it.'

*Takeaway — Missing exclusivity is legitimate grief, not weakness.*

## The thoughts of nights without him

'I'm only a half', 'nights without him = he's abandoning me', 'he's better with her': these thoughts turn an absence into proof of rejection.

Reframing brings the absence back to what it is: a turn, not a verdict.

### Example

*'His absence = he forgets me' panicked Léa, until she recalled it was an agreed turn, not abandonment.*

### Reframe the absence

Note a nights-without-him thought · a fairer version.

### A turn, not a verdict

Write: 'A planned absence isn't abandonment.'

*Takeaway — A planned absence isn't abandonment.*

## A full life, not on standby

The trap of sharing is putting your life 'on pause' between his visits. Yet the days without him are YOUR days: to fill with what nourishes you, not to spend waiting.

Reclaiming your days means no longer being an option in your own life.

### Example

*By filling her evenings alone with friends, projects and pleasures, Nia stopped counting the hours to his next visit.*

### My own days

How could you fill the days without him with what feels good?

### Leave the waiting

An activity or bond to invest in so you no longer live in waiting: \_\_\_\_\_

*Takeaway — The days without him are YOUR days, not a waiting room.*

## Clarify your needs — and your limits

You have the right to express what you need (time, regularity, attention) and to ask for clear agreements. And if sharing becomes an imbalance you can no longer carry, you keep the right to reconsider your place.

Sharing can be lived — but not at the cost of erasing yourself completely.

### Example

*By simply asking for predictability ('knowing which days'), Fatou turned constant anxiety into a livable frame.*

### My need

A concrete need to express around sharing: \_\_\_\_\_

### My limit

Write: 'I have the right to say what's livable for me — or not.'

*Takeaway — Sharing can be lived, but not at the cost of erasing yourself.*
